

Goldy The Goose - White Paper

"Take a quack at the future."

Introduction

Goldy The Goose is a meme-inspired token built on Solana, launched through Pump.fun. Like other meme tokens, \$GOLDY embraces the humor, good vibes, and lighthearted fun typically seen in the crypto space while also endeavoring to create utility through numerous different means.

Unlike other meme tokens that rely solely on hype, \$GOLDY is laying the groundwork for real rewards through a liquid staking platform, NFT integration, and a future ecosystem expansion that turns \$GOLDY into more than just a meme.

FAQS

Q: What makes \$GOLDY different from other meme tokens?

A: \$GOLDY will have a number of real utilities! Unlike most meme tokens that rely on hype, \$GOLDY will feature Staking Rewards, NFTs, and a long-term vision for an engaging ecosystem.

Q: Is \$GOLDY just another Pump.fun token?

A: No! While launching on Pump.fun for fair distribution, \$GOLDY will have its own s[S]taking platform, NFT integration, and future governance system planned.

Q: Will there be burns or deflationary mechanisms?

A: We are evaluating strategic burns and other mechanisms to ensure the long-term value of \$GOLDY.

Q: Where can I buy \$GOLDY?

A: Currently, on Pump.fun. After launch, it will be available on Phantom wallet, Raydium, Pump.fun, Jupiter and other Solana DEXs.
